

Potential impacts of market and non-market forces on live ruminant post-production value losses – Evidence from Senegal

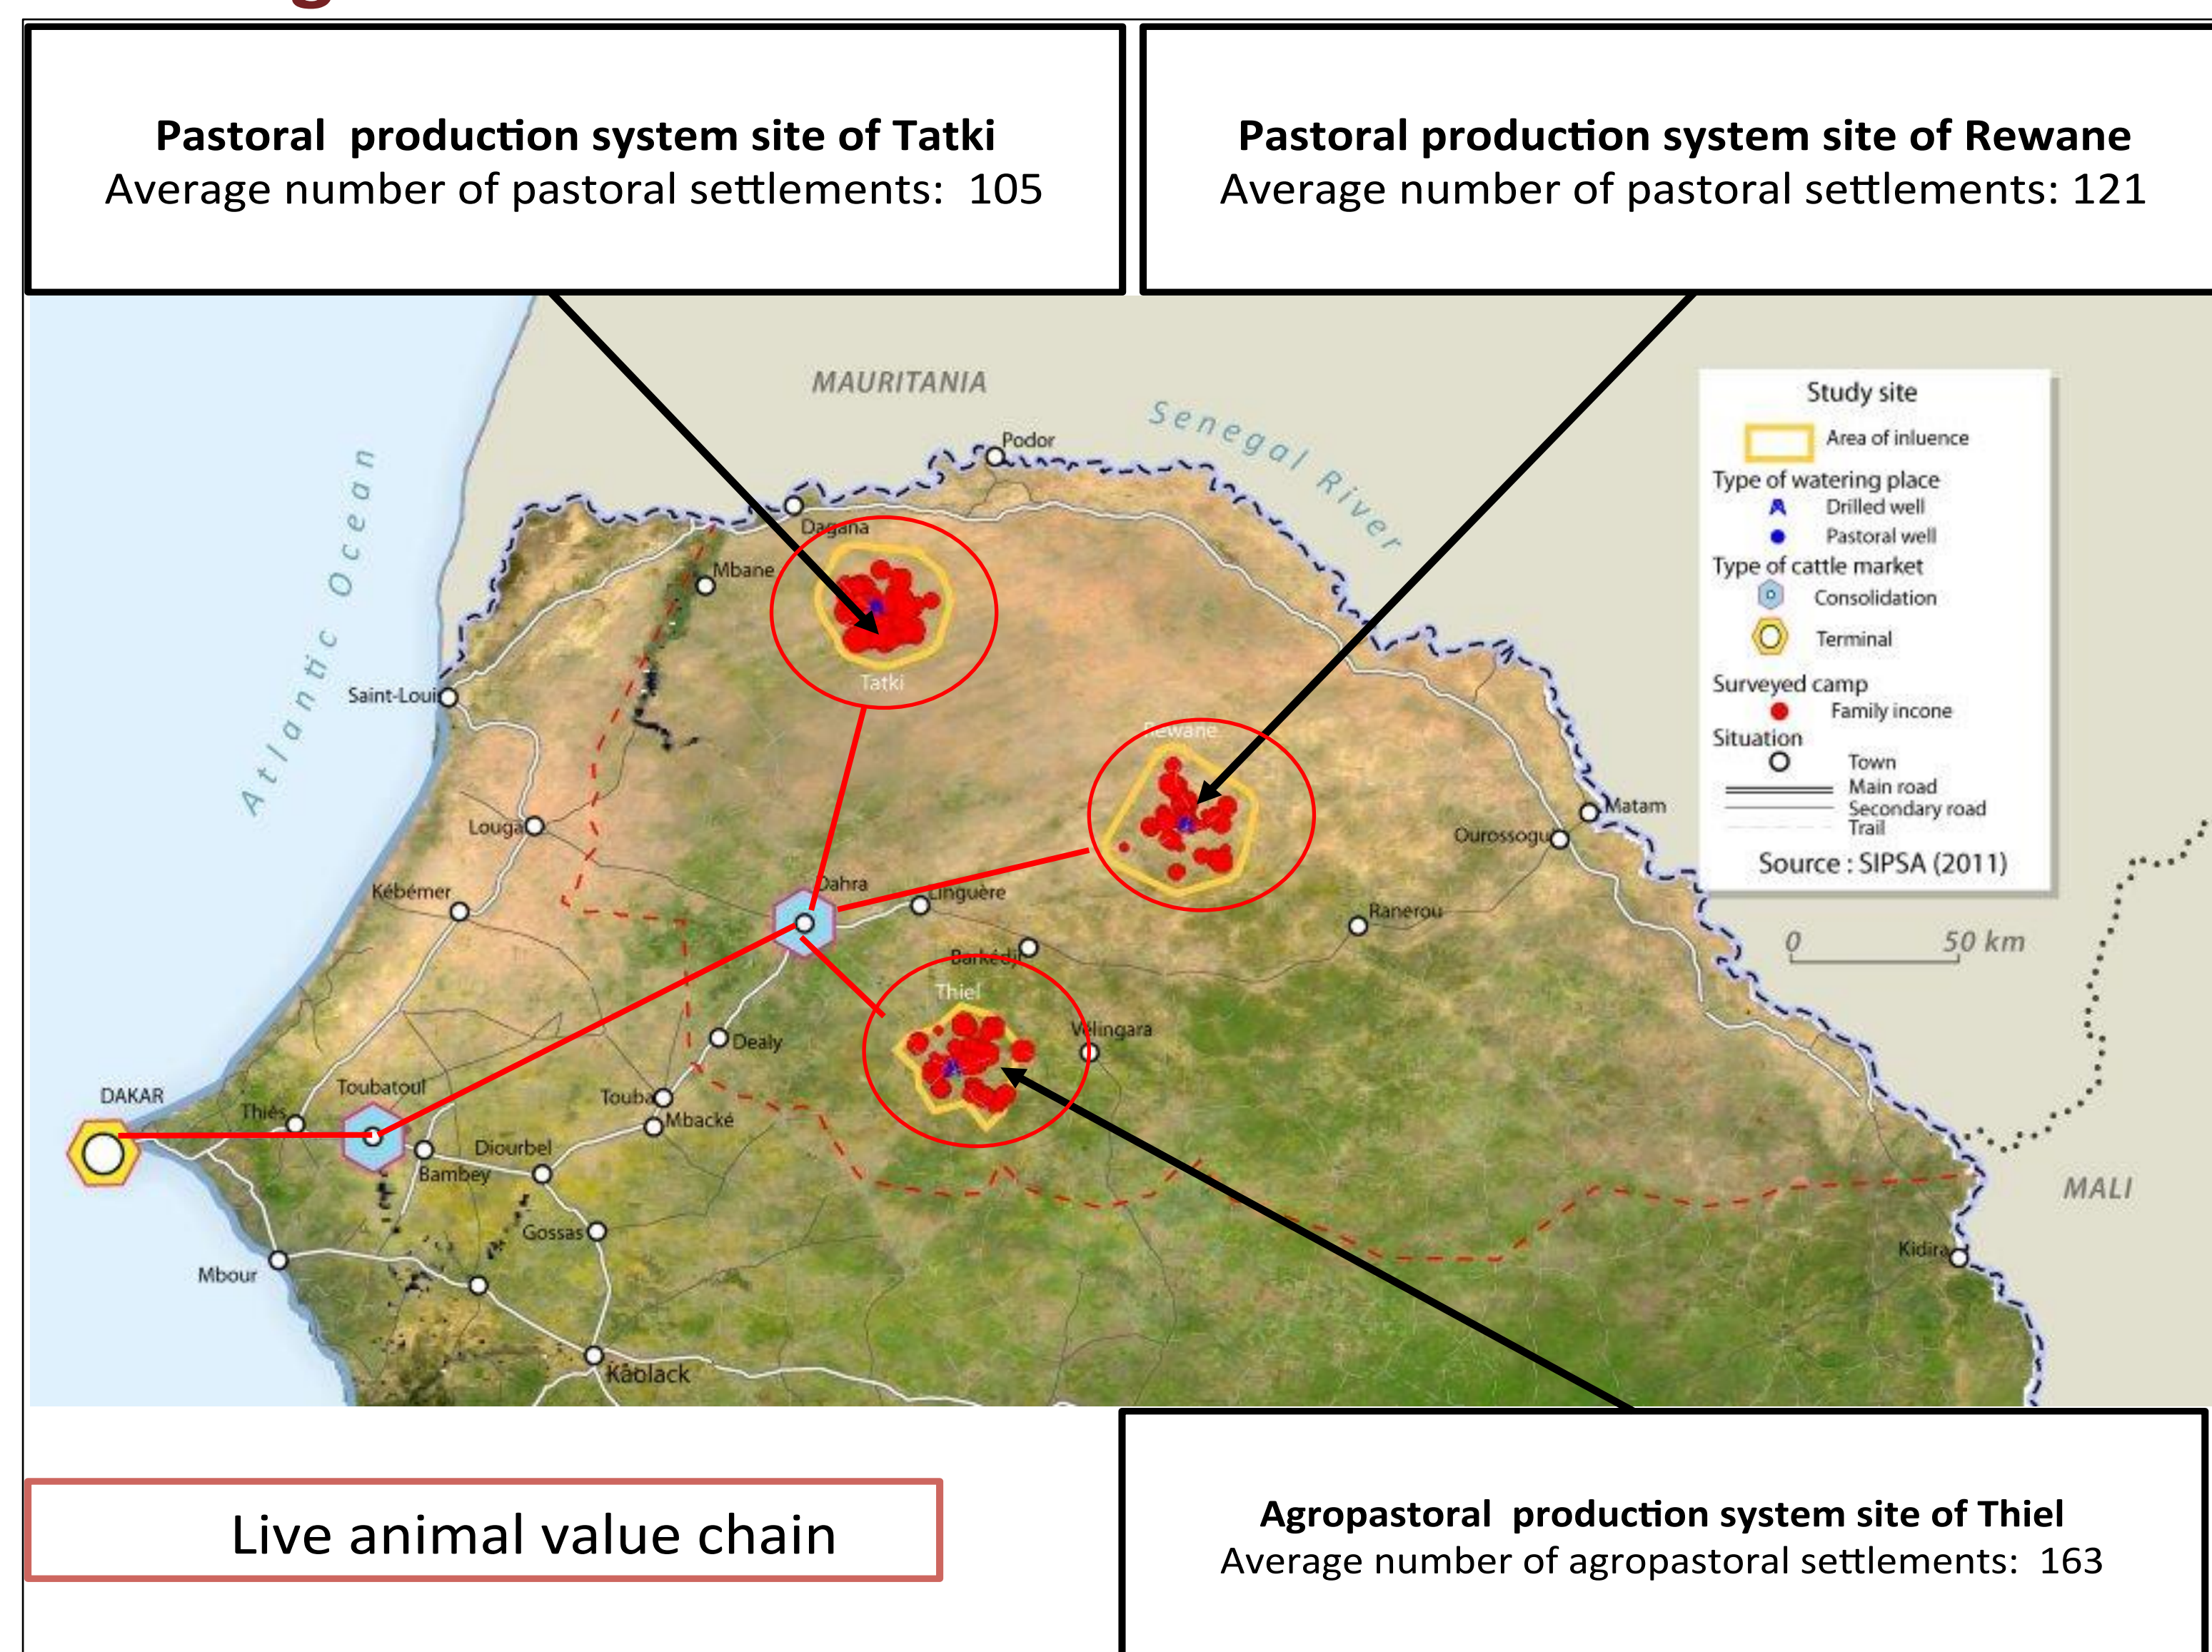

Abdrahmane Wane (CIRAD-PPZS-ILRI-PIL), Nadhem Mtimet (ILRI-PIL), Nelly Njiru (ILRI-PIL), Steve Staal (ILRI-PIL),

3rd International Conference on Global Food Security 2017
3-6 December 2017, Cape Town, South Africa

Conceptual framework of PPL in the ruminant value chain (source: Wane & Mballo, 2016)

Investigated areas

Way forward to improve methodology

- Given the large number of unknown variables, moving towards a simulation and computable exercise on optimization programme
- Testing all indicators at value chain levels in semi-intensive and intensive production systems.
